

Mallinckrodt Pharmaceuticals

Mallinckrodt is a global specialty pharmaceutical business that develops, manufactures, markets and distributes specialty pharmaceutical products and medical imaging agents. Mallinckrodt has an impressive imaging portfolio and a history of outstanding quality and value.

- With our innovative power injectors, Optibolus™ bolus shaping software and proven contrast agents, and as the first provider of prefilled syringes, Mallinckrodt is focused on finding a better way – for the healthcare professionals who rely on us, and the patients who rely on them.
- With over 40 years of experience in the radiopharmaceutical industry we have a proven track record of providing a broad selection of nuclear medicine products and a long history of superior service. As the single-most vertically integrated supplier of radiopharmaceuticals in the world, and a global leader in isotope supply communications, we remain committed to long-term support of the nuclear medicine community.
