

Ultrasound Applications Specialist – 2 Year Contract

Location: Alberta

TOSHIBA CANADA MEDICAL SYSTEMS is a leading worldwide provider of high quality diagnostic imaging systems and comprehensive medical solutions looking for highly capable **Clinical Application Specialist – Ultrasound**, to be located in Alberta for a 2 year employment contract.

In this position, you will assist in the sales process through product demonstrations and customer interactions to achieve regional and corporate sales/marketing goals. You will provide ongoing customer support through product installations, upgrades, phone support and training programs, maintain knowledge of current trends in ultrasound to support customers as capabilities of products are developed and released, and support company goals in all interactions with customers and employees. You will represent Toshiba Canada Medical Systems in a professional manner at all times.

This position collaborates effectively with TCMS corporate and regional resources to achieve profitable revenue growth with customer satisfaction.

As a member of TCMS, you will be an integral team player in the promotion of our ultrasound equipment to hospitals and private institutions

Major Responsibilities

- Provide product demonstration support in hospitals, clinics and other medical facilities
- Support post-sales activities: installation, training, follow-up and troubleshooting with new or existing customers
- Consistently deliver high level quality of education and training to both internal and external customers
- Position yourself as a consultant to both internal and external customer
- Supports tradeshow and other marketing activities
- Active participation in product training for internal and external
- Complete required administrative activities.
- Provide customer feedback to Marketing
- Communicate regularly with local, modality and management teams.
- Professionally handle objections and questions
- Utilizes product knowledge to effectively position features and capabilities that represent solutions to customer needs

Position Requirements

- Minimum 3 to 5 years of ultrasound clinical experience as a registered sonographer in hospital or clinic environment, preferably with experience using Toshiba Ultrasound Equipment.
- Registry required: ARDMS, RDMS or CARDUP diploma.
- Demonstrated ultrasound skill in Radiology, OB/GYN and basic vascular ultrasound imaging.
- Must possess strong communication and interpersonal skills.
- May require more than 50% travel time.
- Previous classroom teaching and presentation experience preferred (in ultrasound would be a plus)

- MS Office software including PowerPoint, Outlook, Word, Excel.
- Commercial applications experience or sales experience a plus
- Strong interpersonal, organizational and communication skills.
- Strong customer interface and training skills.
- Previous leadership experience a plus
- Ability to work independently with minimal supervision and as part of a team
- Effectively and appropriately displays professional skills necessary to manage interpersonal relationships with team members, colleagues and customers.
- Works in a well-organized manner, consistently meeting customer and Toshiba time requirements.
- Strives for constant improvement; inspires and motivates others.

The territory for this job is within the province of Alberta. Candidates must reside in a city within their territory that holds the majority of their customer base and be located near a major airport (within 1 hours drive) to be considered.

Toshiba Medical is a leading worldwide provider of high quality diagnostic imaging systems and comprehensive medical solutions to enrich the quality of life for all people.

About Toshiba Canada Medical Systems Limited

Toshiba Canada Medical Systems Limited (TCMS) provides patient-focused imaging technologies with specialties in CT, X-Ray, Angiography, Ultrasound and MRI. Advanced service solutions range from single-room coverage to complete asset management programs.

Headquartered in Markham, Ontario, we are a dedicated team with strong presence in more than 25 cities across the country. All sales, services and operations are Canadian-based.
