"Being a part of Council has been instrumental for my personal and professional development.

The Council has allowed me to build my capacity in understanding the inner workings of the College and all the effort it takes to be part of a self-regulating profession.

Council members and I contributed to the mission of the college to ensure all Albertans receive safe, competent and ethical diagnostic and therapeutic care. More importantly, it has also allowed me to build meaningful professional relationships with the other phenomenal Council members who motivate me to continuously learn each and every day.

I hope my journey inspires and encourages you to run for Council."

Omer Hussein, MRT(R)
