

# MEDICAL RADIATION TECHNOLOGIST EMPLOYMENT OPPORTUNITY

Be a part of something bigger – help transform medical imaging in Canada by improving people’s lives, one focused image and one caring, compassionate human touch at a time. Through our 14 state-of-the-art clinics, Mayfair Diagnostics delivers diagnostic imaging excellence and high-quality services, offering a wide range of screening, diagnostic, and interventional procedures in communities across Calgary and Regina, Saskatchewan.

## What You Will Achieve In This Role

- Commitment to outstanding patient care which includes family and caregivers
- Obtains patient history, educates patients on exam procedures and answers questions
- Performs high quality x-ray images in a professional, timely and safe manner
- Uses good judgment when assessing cases to differentiate normal and abnormal findings
- Ongoing knowledge of the day-to-day organization of the clinic
- Assesses current and future workloads
- Ensures equipment is operating optimally, including troubleshooting and yearly quality assurance
- Contributes as a team player and maintains a positive work environment
- Performs other non-technical duties including maintaining a clean and safe work environment
- Complies with all Mayfair policies, procedures and protocols

## What You Will Bring To This Role

- Minimum of six months of x-ray experience is preferred
- Certification as a Medical Radiation Technologist from an accredited program recognized by ACMDTT and CAMRT is required
- Active member of the:
  - Alberta College of Medical Diagnostic and Therapeutic Technologists (ACMDTT)
  - Canadian Association of Medical Radiation Technologists (CAMRT)
- Willingness to be trained in all areas of X-Ray, including Pain Therapy, Mammography, and Bone Densitometry is an asset
- Demonstrates superior radiographic technological skills
- Strong attention to detail and accuracy is required
- Demonstrates excellent interpersonal and communication skills (auditory, written and verbal)
- Demonstrates professionalism, empathy and can act as a team player in a collaborative work environment
- Superior time management and multitasking skills with the ability to keep up with a demanding daily workload
- Technically inclined and easily adaptable to new equipment

Mayfair (formerly Radiology Consultants Associated) is a privately held company headquartered in Calgary, Alberta employing more than 400 patient focused team members. Mayfair is owned and operated by a group of more than 45 radiologists, many of whom also work at three of the acute care hospitals in Calgary. We have been delivering specialized and diverse radiology services using state-of-the-art medical imaging technology since 1911. Mayfair is proud to have the first physician owned and operated private MRI and CT facility and is also the official diagnostics imaging provider for the Calgary Flames Group.

# MEDICAL RADIATION TECHNOLOGIST EMPLOYMENT OPPORTUNITY

Our vision is a world in which every person has clarity about their health and to be the recognized leader in providing high-quality radiology, management and related health care services, in the communities we service. We are focused on the needs of our local communities in partnership with physicians and hospitals. We know that our employees are the key to our company's success and future growth. If you're a person who is motivated to go above and beyond, inspired by working with the best and compelled to do the right thing, our organization is the right choice for you.
